NEWS FROM EUROASIAN FOR AUGUST 2017

ALBANIA USD 46,000,000

One of our Hong Kong based Clients has commenced construction of 340 apartments in Albania which when completed, will be sold to Chinese investors. Each buyer may apply for Albanian citizenship.

TURKEY USD 500,000,000

Our Client intends to purchase an existing 6-star hotel which will be retained as a long-term investment. He intends to maintain the existing management.

NIGERIA USD 90,000,000

This is the first phase of an on-going financial requirement to develop residential real estate for sale upon completion. This initial development is located at the Lekki-Epe Free Trade Zone, in Lagos State.

UNITED STATES OF AMERICA USD 700,000,000

Client has commenced detailed planning for a 950 MW gas-fired power plant. Detailed planning permits are yet to be obtained however Euroasian through its FACILITY SLS fund have expressed interest in providing the major portion of the required funding.

SWEDEN EUR 91,000,000

Funding is to be provided for the purchase of an existing medical centre and office block. Again, this is to be funded through FACILITY SLS.

UNITED KINGDOM GBP 34,500,000

Conversion of existing office building into residential apartments to be retained for rental purposes. It is located in close proximity to a major government complex. Client expects to lease most of the apartments to government employees who currently travel some distance from their work place.

*Meetings with Dean Wentworth are held in
Dubai, Hong Kong, London, San Francisco, Singapore, Zurich or Monaco*

deanwentworth@euroasian.com

FACILITY SLS

Facility SLS (Senior Life Settlement) is the provision of bonds (referred elsewhere in this document as “Stocks”) backed by existing life insurance policies (“this Security”) that can be offered to a Bank, Trust or Investment Fund, to secure an advance of funds to enable an Applicant to finance his or her Project. Euroasian is able to offer qualified Applicants, this Security. It is suitable for Applicants wishing to borrow USD 100 million or more although in isolated circumstances, smaller transactions have been achieved.

A life settlement is the sale of an existing life insurance policy to a third party for more than its cash surrender value, but less than its net death benefit. There are a number of reasons that a policy owner may choose to sell his or her life insurance policy. The policy owner may no longer need or want his or her policy, he or she may wish to purchase a different kind of life insurance policy, or premium payments may no longer be affordable. Policy owners often learn about settling their policies from a financial planner or advisor, insurance broker, attorney, friends or family, or estate planning presentations.

Although the secondary market for life insurance is relatively new, the market has been more than 100 years in the making. The life settlement market would not have originated without a number of events, judicial rulings and key individuals.

The U.S. Supreme Court case of Grigsby v. Russell, 222 U.S. 149 (1911) established a life insurance policy as Private Property, which may be assigned at the will of the owner. Justice Oliver Wendell Holmes noted in his Opinion that life insurance possessed all the ordinary characteristics of property, and therefore represented an asset that a policy owner may transfer without limitation. Holmes wrote, “Life insurance has become in our days one of the best recognized forms of investment and self-compelled saving.” This Opinion placed the ownership rights in a life insurance policy on the same legal footing as more traditional investment property, such as stocks and bonds. As with these other types of property, a life insurance policy could be transferred to another person at the discretion of the policy owner.

If more details are required, request Euroasian to forward a document titled “Empirical Investigation of Life Settlements: The Secondary Market for Life Insurance Policies”. Some will find this 45 page document, heavy reading as it is very analytical and looks at the subject from everyone’s position. It concludes however, as follows;

Finally, there is some debate about the morality of life settlements. Life settlements, like reverse mortgages, are neither moral nor immoral. The popular press has sometimes referred to them as “death bonds”. The fact remains that depending on the health condition, the insured would have died at a certain point in time. The life settlement market provides an additional option to the policy owners, but they are under no obligation to use it, such as in cases where the policy owners have the need and the resources to retain the policy themselves. By exercising the option to sell the policy, the policy owner not only eliminates the burden of having to fund future and often increasing premium payments, but also receives an up-front cash lump sum. The additional cash could arguably be used to access better health care, long-term care, etc., for the insured, thereby improving the insured’s welfare.

As experienced investors will know, Private Bankers domiciled in locations such as Monaco, Geneva, etc., only disclose confidential documents to qualified parties. Not only are such document(s) confidential, but they are in this instance, Proprietary to Dean Wentworth (“Euroasian”) and Euroasian’s Monaco Partner (“Monaco”).

At the point where the Applicant (which may include the Applicant’s Accountant, Lawyer, Partner and/or Investor) attends the meeting in Monaco, the Applicant will have every opportunity to view relevant documents associated with past Closings. That documentation will include but not limited to:

- * KPMG Actuarial Review of (name of Stock Provider, hereafter referred to as “THE PROVIDER”) GH_life settlements
- * (Name of International Bank) Terms Sheet THE PROVIDER Total Return Notes
- * THE PROVIDER Global British Columbia, Canada Registry, - Certificate of Good Standing
- * THE PROVIDER BLOOMBERG Prospectus

- * THE PROVIDER Monthly Statements
- * KPMG THE PROVIDER GH_life settlements List of Policies
- * THE PROVIDER Information Attachments
- * Resumes of Euroasian's Monaco Partner
- * Prospectus's pertaining to various Closed Transactions
- * etc. etc.

These documents run into many, many hundreds of pages. Also present at the Monaco meeting will be a senior director of the owner of the Stock and the Due Diligence Officer that is responsible for writing the Prospectus. Thus the Applicant will have every opportunity to ask questions that relate to the Applicant's transaction.

In order to assist the Applicant to understand the Procedures, Euroasian will assume for the purpose of this exercise, that the Applicant wishes to borrow \$100 million for the purpose of constructing a power plant. The final figures may vary depending for instance on the Actuarial study that will dictate the number and quality of the Stock Certificates required for a given transaction.

- 1 Euroasian and our Associates (hereinafter referred to as "Euroasian") will -
 - 1.1 Provide SLS Policies, all A rated with a face value of \$250 million.
 - 1.2 Prepare a Full Prospectus
 - 1.3 issue a Stock Certificate viewable on Clearstream, enabling it to be transferred electronically to the appropriate Bank. The Provider of the Stock will be a co-signatory at this Bank.
- 2 The word "Bank" shall mean either a Lending Institution selected by the Applicant or alternatively a Lending Institution nominated by Euroasian. The Bank will advance \$200 million which will be disbursed as follows:
 - 2.1 \$ 90,000,000 million to a Major International Trust ("the Trust") that will
 - 3.1.1 undertake to maintain the Insurance Premiums, and
 - 3.1.2 Guarantee to pay The Bank an annual interest rate of 6.5% and repay in 10 years, the Principal (\$200 million).
 - 2.2 \$ 10,000,000 fees to Euroasian who will have
 - 3.2.1 prepared the Prospectus required to acquire the Stock Certificates and
 - 3.2.2 lodged the Finance Application with The Bank
 - 2.3 \$ 100,000,000 to the Applicant for his Project. As the Trust via the Insurance Policy has guaranteed to service and repay The Bank's loan, **the Applicant does not have to service or repay this sum.**
- 3 The fees payable to Euroasian for the above are -
 - 3.1 For the services outlined in 1.1, 1.2 & 1.3, \$350,000 (0.14% of the policy value, in this instance \$250 million). Half is payable upon the Applicant's Formal Acceptance of the LOI with the balance paid upon issuance of the Stock.
²This percentage (0.14%) reduces as the policy value increases.
 - 3.2 \$10,000,000 at closing (see point 2.2 above).
 - 3.3 Additionally Euroasian will require an equity position in the Applicant's Project in return for providing 100% of the cost of the Applicant's Project, \$100,000,000 in this example. The equity scale is as follows:
 - 3.3.1 25% if the Applicant has utilized his own Bank to fund the above program, or
 - 3.3.2 50% if Euroasian introduces one of our Banks to fund the program.
- 4 Required documentation is -
 - 4.1 Summary of Project
 - 4.2 CV and background of the Applicant
 - 4.3 Projected income of next three to five years
 - 4.4 If an existing business, the last three years audited statement
 - 4.5 Applicant's Web Site
 - 4.6 The asset that the Applicant is providing as collateral which is:
 - 4.6.1 the Stocks that Euroasian will provide, fully covered by a Rated Insurance Policy that regardless of the Applicant's Project, will pay the Lender's Interest and repay the Principal sum, at the end of the 10 year term.

- 4.6.2 the Applicant's Project
- 4.7 Stress test of the entire project including the Stock, the Insurance and the Project - this will be done by an Actuary - Euroasian will arrange this.
- 4.8 Full Offering and Prospectus of the Project and the Stock that is attached to the Project including the Insurance Policies - Euroasian will attend to this.
- 4.9 Dean Wentworth's Recommendation that the Applicant is a suitable person to apply to be the beneficiary of the Program and to be a partner with Euroasian.
- The items in BLUE will be the responsibility of Euroasian.
- 5 Timing - from the time Euroasian is placed in funds (3.1), 90 days minimum depending on the complexity of the overall transaction.
- 6 The step by step procedure for moving forward with this Facility is as follows -
- 6.1 The Applicant lodges the application in our TUAYP form (attached) and provides as much supporting documentation as is available.
- 6.2 Euroasian will respond and recommend a Conference Call.
- 6.3 Following the Conference Call, Euroasian will require to meet the Applicant (see point 6.4 below) to ensure that both Parties are comfortable in moving forward with an application for a Letter of Intent (LOI) to be issued which will confirm
- 6.3.1 the full terms and conditions,
- 6.3.2 confirmation that Euroasian is able to access the appropriate Insurance Policies (the Stock),
- 6.3.3 a detailed outline of the costs involved and when payable, and
- 6.3.4 a list of any additional documents which may be required.
- The application for the LOI will include Dean Wentworth's Written Recommendation (4.9 above). This Recommendation can only be issued following the Applicant's meeting with Euroasian.
- 6.4 The Applicant can elect to have their initial meeting with Euroasian (Dean Wentworth), in Monaco and then accompany Mr. Wentworth to a meeting with his Partner, a Director of the Stock Provider and the Due Diligence Officer responsible for the preparation of the Prospectus. At this meeting all aspects of the Applicant's transaction will be discussed. Included on the Agenda will be the selection of the Lending Bank, either one nominated by the Applicant, or a Bank from a panel of banks that have previously concluded these transactions. Assuming both Parties are happy to proceed, the LOI will be issued within 3 banking days. As previously stated, the Applicant may bring to these meetings, his Attorney, Partner, Investor etc.
- 6.5 Upon the Applicant accepting the LOI, the Applicant will be required to place Euroasian in funds as outlined in point 3.1 above.
- 6.6 Once the Prospectus has been issued, the Stock will be ready for transfer to the appropriate bank account. At that point, the balance due to Euroasian (point 3.1 above), is payable.
- 6.7 The action as described in point 1.3 above, will then take place.
- 6.8 Once the Bank's Formal Approval is received, instructions will be given for the Closing to take place.
- 7 Dean Wentworth's time and travel related disbursement costs, will be payable in advance of any travel that is required in association with this Facility and is additional to Euroasian's costs as referred to in clause 3.1 above.

THE A-B-C TO GET FUNDED

- A Complete our TUAYP form**
- B Meet the Team in Monaco and we will issue you with your Letter of Intent**
- C Instruct us to write The Prospectus after which we will issue The Stock and arrange The Bank**

EUROASIAN

deanwentworth@euroasian.com

WHO IS DEAN WENTWORTH & EUROASIAN AND HOW CAN THEY HELP ME?

Dean Wentworth is an Australian Citizen who lives in Sydney. In 1960 he formed a finance brokerage company to put in place housing loans. Quickly this expanded into commercial finance applications and later the company opened an office in Hong Kong. From there the company expanded throughout Asia, North America and Europe. Euroasian now represents Clients on every continent.

Euroasian has never acted for a Client it has never met. In so doing Dean Wentworth ensures that he fully understands the needs of his Clients and accordingly is able to represent those needs to the 9 Bankers with whom he works. Just as he always meets his Clients, he makes a point of representing each Client's Submission by lodging the completed application in person with the appropriate Banker.

This "Tell Us About Your Project" is the first stage in the application process. Mr. Wentworth will likely have some questions arising from his reading of your Submission. He will email those questions to you and once answered, he will invite you to meet with him, usually in one of the cities noted at the foot of this document.

Once the Submission is fully documented, he will discuss your requirements with the Banker he feels is best suited to fulfill your requirements. If there is a positive response, he will request that you place him in funds for his travel related disbursements. Once Euroasian's Bankers extend to you an Offer, they will likely require you to attend a meeting with them. Mr. Wentworth will accompany you to that meeting.

Euroasian will receive a fee paid at Closing and included in the Banker's loan/investment sum. Accordingly if your circumstances are such that you do not have the time to go through the above process, then you should not complete this application as Mr. Wentworth needs the time to work with you and his Bankers, in a professional manner, in order to negotiate the Bank's Offer.

A final and very important point; Occasionally Euroasian receives applications that are not in accordance with the facts. In such circumstances, once the truth becomes evident, Mr. Wentworth has to advise the Bank accordingly. This leads to the Bank's Offer being cancelled. This is a no-win situation for all concerned. Therefore if you need guidance in completing this form, please email Mr. Wentworth as it is essential that the application be correct in every detail.

Meetings with Dean Wentworth are held in
Dubai, Hong Kong, London, San Francisco, Singapore, Zurich or Monaco

Please answer these questions

Hand-written material cannot be accepted

- 2B.1 Describe your Asset/Project
2B.2 Do you propose to develop and hold the Asset/Project as an investment, or is it proposed to develop for sale upon completion.
2B.3 Do you hold all necessary approvals in order to immediately proceed with the proposed development
2B.4 At what address is the Asset/Project located
2B.5 What is the name of the nearest jet airport. State the airport CODE, i.e. Los Angeles is LAX.
2B.6 What is the driving time from that airport to the location of your Asset/Project
2B.7 What is the name of the nearest major city
2B.8 What is the driving time from that city to the location of your Asset/Project
2B.9 If you already own the Asset/Project, do you require Euroasian to refinance any existing debt
2B.10 How much is owing
2B.11 If you wish to acquire the Asset/Project, what is the acquisition price
2B.12 For how many years do you require Euroasian's Advance
2B.13 How do you propose to
 2B.13.1 pay the interest and
 2B.13.2 repay the principal
2B.14 Is interest to be paid
 2B.14.1 from day 1 or
 2B.14.2 capitalized and if the latter,
 2B.14.3 for what period
2B.15 Name the funders who are considering or have considered this application and advise the result.
2B.16 Are you offering
 2B.16.1 corporate guarantees
 2B.16.2 bank or similar, guarantees
 2B.16.3 government or similar, guarantees
2B.17 Provide a brief Executive Summary
2B.18 Provide a short outline of your past experience in the field covered by the subject project
2B.19 If you are making application via an Intermediary, please confirm the extent of the fee agreement, expressed as a percentage of the Advance sum.

Section 3

On the following page, there is a 5 year cash flow. Every application must include this cash flow. Please follow the format as shown. Do not send detailed cash flows as part of this Submission. If the application involves more than one asset, this document should comprise all securities - do not separate the securities. Hand-written material cannot be accepted. If the currency of your choice is not USD, the cash flow must show the equivalent in USD and state the rate of exchange used in your calculations.

Column 1

Provide a detailed breakdown of the sum shown in Column 1, Quarter 1. This is the initial sum advanced on day 1 such as [where applicable] purchase price, discharge of existing loan[s] etc. If you are applying for a development loan, do not include in this column the first quarter's draw-down of funds as this must be shown in column 5 in the quarter in which development work commences. Do not include any brokerage or service fees in this cash flow - Euroasian will add those in at the appropriate time.

Column 2

Total of gross income received, before Interest/Principal payments. This could be operating income, from sales, rents, cash injection, etc. but not from Euroasian's Advance.

Column 3

Total of your operating expenses, excluding Interest/Principal payments and development costs.

Column 4

Deduct the total year's operating costs from the total year's gross income, and show the balance.

Column 5

Show quarter by quarter, the sums you require to be advanced for development purposes. Advances will be made on a monthly basis - the cash flow requests quarterly figures, for simplicity. Don't include Interest costs. Where you have cash to partially meet the cost of development, that cash must be utilized initially in which instance our first draw will be part way through development. Include such cash in Column 2 but provide a Note showing the breakdown between net income [if any], and available cash.

Column 6

Show your estimate of the present and future value of the Security. If the security receives or will receive, rental income, that income should be capitalized at the appropriate rate to give an approximate value. Your accountant and/or a valuer/appraiser can advise you on the correct rate. If the security is to be sold over a period of some years, i.e., a residential development which once completed, is to be sold to end users, the value figure at the end of each year will be the retail value of the unsold units.

ADDITIONAL SERVICES

Australian Real Estate Investments

In my role as a Real Estate Investor, I provide a service for off-shore investors (My Clients) to invest in Australian Real Estate.

Restrictions apply to non-Australian investors who seek to acquire Australian real estate. These restrictions do not apply to the writer who was born in Sydney, is an Australian citizen and has many years of experience in developing and acquiring income producing real estate, particularly in Sydney and in Far North Queensland.

Often My Clients wish to retain a low profile not only in the country of their origin but particularly in respect to their foreign investments. I achieve such a result.

I often have the ability through the connections that I have established over many years, to acquire excellent properties at below market price. The ability to fund such purchases, assists in providing vendors, with a very quick settlement.

Obtain Australian Residency Status leading to becoming an Australian Citizen

You may have existing assets that can be refinanced, thus providing you with the necessary cash funds to invest in an Australian business and thus qualify for an application to become a Permanent Resident of Australia. Dean Wentworth may be able to refinance your existing asset and can certainly introduce you to existing profitable Australian businesses that will generate immediate cash flow.

The Establishment of Offshore Companies & Bank Accounts

It is not unusual for some of my Clients to request assistance in establishing private and *confidential* investments in off-shore locations which can often provide low tax or tax-free benefits.

Via my Associates in the jurisdictions noted below, I assist my Clients to expand into new markets, run their businesses more effectively and enhance opportunities while exploring new markets. This includes incorporation and management services and includes assistance with setting up bank accounts for new companies, registered offices, and secretarial, business and virtual office services.

Hong Kong, Singapore, Luxembourg, Liechtenstein, Monaco, Jersey, Gibraltar,
Bermuda, Bahamas, Cayman Islands, British Virgin Islands, Netherlands Antilles

For inquiries in respect to the above

If you have an interest in discussing the work that I do, I would be pleased to hear from you.

Report by Credit Suisse

Thanks to their houses, Australians are the richest people in the world, according to the investment bank Credit Suisse.

The fifth annual study by the Swiss bank of global wealth trends found the median Australian adult was worth more than \$US225,000 (\$258,000) in June, well ahead of the second wealthiest population on this measure, the Belgians, at \$US173,000. They were followed by the Italians, French and British, all at around \$US110,000.

Only 6 per cent of Australians have wealth below \$US10,000, compared with 29 per cent in the United States and 70 per cent for the world as a whole.

Household wealth in Australia is heavily skewed to "real assets" – essentially property – which average \$US319,700 per household, or 60 per cent of gross assets. This is the second highest in the world after Norway.

The 2014 Global Wealth Report shows global wealth is 20 per cent above its pre-crisis peak and almost 40 per cent higher than the low recorded in 2008.

Australians have grabbed more than their fair share of the growing pie. The section of the report on Australia is titled "No worries", a headline that some economists may take issue with but which is deserved based on the rapid and almost uninterrupted accumulation of wealth over the past 14 years, as detailed in the report.

Since 2000, the net wealth of the average, or mean (as opposed to median), adult Australian has more than quadrupled, from \$US103,151 to \$US431,000. That makes us the second richest population on this measure, behind the Swiss at \$US581,000. Over the past 12 months, average adult wealth has grown 5 per cent.

"These are obviously remarkable figures for Australia," Credit Suisse Private Bank chief investment strategist David McDonald said. "We are well positioned globally in terms of wealth, as well as the spread of wealth."

The appreciation of the currency has been a considerable tailwind over the period but even in constant currency terms, average wealth has grown 145 per cent over the past 13 years to \$US369,000 from \$US151,000. In 2016, the increase in the value of Sydney real estate, was 18%. While global wealth has increased, the gains have not been spread evenly, with the report finding that the trend since 2008 has been one of increasing inequality, particularly in developing economies.

"The financial crisis has acted as a breakpoint in inequality, as most countries were showing a flat or declining trend before 2007," said Markus Stierli from the Credit Suisse Research Institute, which published the report. Australia is classified a "medium -inequality" country by the Credit Suisse researchers, a group that includes New Zealand and is defined by the richest 10 per cent controlling between 50 per cent and 60 per cent of the country's net wealth. Among developed economies, Hong Kong, Switzerland and the United States are deemed to have "very high inequality", where the top 10 per cent control more than 70 per cent of the wealth.

This is borne out by the average wealth figures of the US. Median adult wealth in the world's largest economy stood at only \$US54,000 – well out of the top 10 richest populations. But when measured on an average – or mean – basis, the US ranked fourth in terms of household wealth at \$US348,000.

Bank of America Merrill Lynch chief economist Saul Eslake attributed -Australia's relatively even spread of wealth in part to its love of property. "Rising house prices tend to reduce inequality, as they make up part a greater part of middle class wealth," he said.
